By Kanishka Modi

Example

Write a well-structured paragraph on “Cleanliness.” Explain what cleanliness means, why it is important, and how you practise it daily.

Cleanliness means keeping ourselves and our surroundings neat and free from dirt. It is important because it keeps us healthy, prevents diseases, and helps us live in a safe and pleasant environment. A clean place also makes us feel happy and comfortable. I practise cleanliness every day by taking a bath, brushing my teeth, and wearing tidy clothes. I keep my room organized, throw waste in the dustbin, and wash my hands before eating. I also help keep my school and home clean. Cleanliness is a good habit that everyone should follow.
